

## Assignment no. 1

The 10 rules of photo composition (and why they work)

Student Name : Tracey Ho

ID No. : 301448338

Date : 11<sup>th</sup> Sept., 2020

**Rule 1. Simplify the scene**

Why it works:

The whole picture is a slice of lemon and nothing else on the photo, no other background. The photo is so simple and draws viewers to the subject directly.

**Rule 5. Leading lines**

Why it works:

The fence is in the middle of the picture that showing the clear line. This fence makes viewers to follow the line from the right to the far left.

### Rule 3. **Aspect ratio**

Why it works:

The picture shows three parts and indicates the aspect ratio is 3:2.

## Rule 6. **Use diagonals**

Why it works:

This is spinning spiral climbing tower. I shoot the picture from the bottom of the pillar. The pillar makes a diagonal line which makes the eyes focus towards the point. The pillar also divides the image and creates the depth.

## Rule 9. **Creative with colors**

Why it works:

Color in picture normally will draw viewers attention. Yellow is one of the primary color which is so bright and warm. And, it is a cheerful, friendly and creative color. These yellow flowers obviously will attract the viewer's eyes and make them to see the picture for a long period of time.
